WOW! PRODUCT MJ VISUALS BEADED CANVASES
JUDGE MARGARET WOERMANN

Martine Jackson's beaded panels have a global, technological feel in that they resemble grainy, low-resolution, pixelated images. The panels have an exceptionally high-quality finish, but I chose them for their strong individuality. Martine is not merely a maker-pleaser – she expresses a like-for-leave-it attitude in her work by creating objects that she herself enjoys. These versatile panels serve as mirror-frames, furniture panels and art works in their own right. The application of the beads is outsourced as an opportunity project among women in the greater Cape Town area.

MARGARET WOERMANN believes that the local design industry should provide collaborative training for the unskilled in order to foster independent endeavours. She mentors craftspersons, encouraging them to develop and market their talents. The Cape-based drops Heartworks are her brainchild.

BEADED PANELS R1 500 FOR THREE (FRAMED) AND INDIVIDUAL PANELS R5 500 (FRAMED) ARE AVAILABLE FROM MJ VISUALS. CALL ☎ 082 372 8962.

WOW! PRODUCT TOOTHBRUSH HOLDER
JUDGE MARISA FICK-JORDAAN

'When a product is meant to serve a functional purpose, then I look at its ergonomics and practicality. Which is why I selected this innovative toothbrush holder designed by Woody Meyer of Durban. Made from polished and laser-cut stainless steel, it gets my vote for both working hard and looking slick. The design takes care of the drips and the nifty little shelf means there are no cups that are a nightmare to keep clean.'

MARISA FICK-JORDAAN looks for innovation, simplicity and quality when judging her WOW! products. She is the passionate product developer behind Durban's BAT Shop and is involved with the creation of skills through rural community projects.

THE TOOTHBRUSH HOLDER FROM R195 IS AVAILABLE FROM RE-STORE. CALL ☎ (031) 207 5082.
